

On January 1, 2017, your electricity costs went down 8%.

Ontario's government is reducing electricity costs by rebating an amount equal to the provincial portion of the HST on your monthly hydro bill. That's an 8% rebate for Ontario families, and on average will mean \$130 more in your pocket each year.

This is part of Ontario's plan to help people with the costs of everyday living by reducing electricity costs. Across Ontario, about five million residential consumers, farms, and small businesses will benefit from this rebate.

London Hydro Inc. will implement these savings onto your bill by July 1, 2017. Applicable savings will be retroactive to January 1, 2017.

Children's
MUSEUM

You'll make a world of difference

**Drop by the London Children's Museum and check out
London Hydro's *You'll Make a World of Difference* exhibit.**

**London Hydro has partnered with the London Children's Museum to help
kids learn more about where electricity comes from and how it works!**

**The interactive models let kids have fun while learning how electricity
is generated and how it gets from the electricity grid to your home.**
